PROJECT SUMMARY

Some of the major project in which I worked on :-

Project	Verizon FiOS Mobile
Description	Check out the Verizon FiOS Mobile application with select live streaming TV channels, available now to watch both in and out of your home! FiOS Mobile also offers Free and Subscription On Demand content, the ability to use your eligible device as a remote control to interact with your FiOS TV, remotely manage your DVR recordings, view TV listings, and access the FiOS On Demand catalog.

Role	Coding, code review and testing.
Platform	iPad, iPhone.
URL	https://itunes.apple.com/us/app/verizon-fios-mobile/id406387206?mt=8
Library	Cocoa touch.

Project	Care4Today™ Mobile Health Manager
Description	Staying on schedule with your medications can get complicated. Care4Today™ Mobile Health Manager is more than just a self-directed reminder tool-it can help support and encourage you to manage your health. Brought to you by Janssen Healthcare Innovation, a newly established team within Janssen Research & Development, LLC., and designed in consultation with patients and JHI physicians and pharmacists.
Role	Coding, code review and testing.
Platform	iPhone.
URL	https://itunes.apple.com/us/app/care4today-mobile-health-manager/id683484327
Library	Cocoa touch.

Project	MySMHGuide
Description	Indoor mapping with turn-by-turn directions and click-to-call directory of hospital departments and physicians as well as hospital news and announcements.
Role	Coding, code review and testing.
Platform	iPhone.
URL	https://itunes.apple.com/us/app/mysmhguide/id690413336?mt=8
Library	Cocoa touch.

Project	My Apps
---------	---------

Description	This app provide a facility to make an universal (iphone,ipod,ipad) app from it. It provide a number of categories, themes, option to make own app of user at runtime.
Role	Coding, code review and testing.
Platform	iPhone.
URL	https://itunes.apple.com/us/app/igenapps-my-apps/id477438192?mt=8
Library	Cocoa touch.

Project	BBBS.
Description	This app is a place for anyone who is involved or would like to get involved in the Big Brothers Big Sisters mentoring program. Volunteers and students can check-in when they are out and about and rate their activities. Volunteers can chat with other volunteers and ask questions and get suggestions for new activities. Parents and volunteers can post information on how the program has impacted their child. Donors can see exactly how their investment is affecting youth. Everyone can RSVP to events. The new "iLittle" is a useful tool that helps illustrate all the challenges kids face today and how a Big Brother or Big Sister can help them face those challenges.
Role	Coding, code review and testing.
Platform	iPhone.
URL	https://itunes.apple.com/us/app/bbbs/id527032219?mt=8
Library	Cocoa touch.

Project	4Tune-Teller.
Description	Combining music, nostalgia, and fun...4Tune Teller is an ENTERTAINING step up from the boring shuffle! And you get an mp3 download with it of a new musical artist.
Role	Coding, code review and testing.
Platform	iPod.

URL	https://itunes.apple.com/us/app/4tune-teller/id531306630?mt=8
Library	Cocoa touch.

Project	Safety Plus.
Description	School Safety Tracker Plus is a new safety tracking system, school safety audit tool, drill reporting, and emergency operation plans app. Allows for self-assessment of campus safety and security meeting the requirements of Texas Education Code 37.108. The Emergency Operation Plan features address all four phases of emergency management. Immediate and accessible method for tracking recommended school safety drills. An incident reporting and tracking system that allows students, staff, and parents to anonymously report school safety concerns to your administration 24/7/365.
Role	Coding, code review and testing.
Platform	iPad.
URL	https://itunes.apple.com/ca/app/safety-plus/id635144858?mt=8
Library	Cocoa touch.
