- ❖ Checking and studying the feasibility of the given user requirement.
- ❖ Impact analysis within and outside the system.
- ❖ Creating the design documents (high/low) and getting it approved from the client.
- ❖ Involved in Regression testing, unit testing, integration testing, and system testing of the developed objects.
- ❖ Delivering the source code to the production box.
- ❖ Supporting the implementation of software in to production environment.
- ❖ Monitoring the performance of the existing system and enhanced systems and also taking actions for improvement in performance will be taken.
- ❖ Identifying the root cause for all the production problems and post implementation problems.
- ❖ Experience in Requirement study, Test Case Designing and test Execution

SKILLS SUMMARY

- ❖ JCL, COBOL
- ❖ DB2,VSAM
- ❖ CICS
- ❖ ENDEVOR ,CHANGEMAN
- ❖ XPEDITOR,FILE-AID,CA7
- ❖ FILE MANAGER

EXPERIENCE HIGHLIGHTS

- ❖ Working as senior software developer in UST from 24th August to till date.
- ❖ Worked as Software Engineer in IBM India pvt Ltd. from March 2013 to August 2015
- ❖ Worked as a software developer in UST global September 2011 to January 2012.
- ❖ Worked as a software developer in Nihilent technologies from October 2010 to August 2011.

EDUCATION, TRAINING & CERTIFICATIONS

- ❖ Master of Computer Applications (MCA) from Osmania University, Hyderabad in 2008.
 - ❖ Completed level 1 competency in health care domain
-

Personal Profile:

Full Name : Gangadhari Thirupathi
Marital Status : Married
DOB : 25-08-1983
Reference :

Project:1

1.WGS STARBROKER SYSTEM 2016

Anthem:

Anthem is the largest health benefits company in terms of commercial membership in the United States. Through its nationwide networks, the company delivers a number of leading health benefit solutions through a broad portfolio of integrated health care plans and related services, along with a wide range of specialty products such as life and disability insurance benefits, pharmacy benefit management, dental, vision, behavioral health benefit services, as well as long term care insurance and flexible spending accounts.

Product Refreshment 2016:

The anthem introduce the 3 new products (LFEVOL, STD VOL AND LTD VOL). Correct commission should be processed for new products such as SUPLFE, VOLLFE, VOLSTD and VOLLTD under the flat and tiered commission schedules for external agents. Correct commission should be processed for new products such as SUPLFE, VOLLFE, VOLSTD and VOLLTD under the zero commission schedule for internal agents.

ISG broker side should accept new product types like SUPLFE, VOLLFE, VOLSTD and VOLLTD at the time of SG enrollment.

The small group reports should accommodate the new product types as well as LOBs.

Client	: Anthem, USA
Organization	: UST
Language	: COBOL JCL
Database	: DB2
Team size	: 4
Role	: Senior Developer
Tools	: Change man, File Manager

Environment : COBOL, JCL, DB2, Change man

Roles & Responsibilities:

- ❖ Understanding the client's Business Requirement Documents
- ❖ Preparation of Low level design documents (LLDs) by analyzing High level design documents(HLDs)
- ❖ Prepare the Test jobs and validate the data.
- ❖ Preparation of test cases
- ❖ Based on the test scripts written in a UTP and UTR and shared to onsite poc.
- ❖ Worked as CQ team member solve the production issues.

4.INTEGRATED CASH MANAGEMENT SYSTEM (Ned Core Bank)

Ned Bank at the end of day will be sending two files to PROGNIS will having details of closing balances for all its ATM and Branches. Based on this PROGNIS will predict using its own software, how much money will be required by a particular ATM and Branch.

File output from PROGNIS will be updated in Teller Treasure Database, which then each Branch can update the predicted information if any by 10 am (next day). The information will be extracted and sent back to PROGNIS in the form of file. This information will be then again forwarded to SBV by PROGNIS to fulfill the Cash Request. After 10 am if any branch or ATM is in need of additional / emergency cash the request will be sent to NEDBANK CASH SETTLEMENT which will manually handle the cash requirement. PROGNIS will be only updated with this information so that it can use this data for its next predictions.

As a Team Member, I am involved in the following activities:

Responsibilities:

- ❖ Understanding and gathering requirements from Onsite coordinator.
- ❖ As a team member involved in analysis, design and testing.
- ❖ Preparing the impact analysis.
- ❖ Reviewing codes, test results, test plan etc.
- ❖ Involving in the client meetings with the Lead.
