

Vinod Kumar

Sr. HTML5, AngularJS Developer

SUMMARY OF SKILLS

- A motivated proactive professional with more than 5years of experience, coupled with strong analytical and adaptive skills in implementing various business applications and products using JAVA/J2EE technologies with UI Development and UI Designing.
- Involved in various phases of Software Development Life Cycle (SDLC) of the application like Requirement Gathering, Design and Analysis and code development. Having experience in health care , Logistics Domains
- Coded dynamic and browser compatible UI web pages using JavaScript, CSS3, HTML5, JQuery, Ajax and responsive design in MVC environment.
- Having good knowledge on responsive as well as fluid web development
- Solid experience in **Angular js**, knowledge on Nodejs, backbone js
- Hands on experience in UI designing (**Semantic UI, Materilized CSS, Foundation ,Twitter Bootstrap, JQuery, HTML5, CSS3, JavaScript, JSON.,HTML5, CSS3**, Knowledge on SASS, LESS)
- Worked on Angularjs Directives, Controllers, Restfull Services, Yeoman Generators
- Worked on Single Page Applications. Worked on JQuery Datatables, Jquery Easy UI
- Good command over gulp, grunt, git , hands on experience on IDEs like Sublime text, Brackets, Dream viewer, Netbeans, Eclipse
- Knowledge on Bitbucket and Jiira
- Hands on experience on Spring MVC, **ORM**
- Worked on **Hibernate** technology, used **java 5 JSP, JDBC**, and **oracle 10g** as database on windows platform
- Working experience on CSS Background, CSS Positioning, CSS Text, CSS Border, CSS Margin, CSS Padding, CSS Table, Pseudo Classes, Pseudo Elements and CSS Behaviors in CSS
- Very good team player, quick and ardent learner with good analytical skills,
- Having **excellent communication skills**.
- Having knowledge on documentation.
- Able to communicate to the client and understanding requirements

TECHNICAL SKILLS

- **UI Technologies** : **Semantic UI, Materilized CSS, Twitter Bootstrap, Foundation, YUI, CSS3, SAS, Less.**
- J2EE Technologies : Spring, Hibernate, JSP, Servlets, JDBC, XML, , ANT, JUnit, SDLC.
- JQuery APIs : JQuery Core, JQuery UI, JQuery Date and Time Picker, Semantic UI, Twitter Bootstrap.
- SPI : **Angular Js**, Knockout Js.
- Web/App Servers : WebLogic10.x/9.x/8.x, Tomcat 5.x/4.x.
- IDE Tools : **Sublime Text, Brackets**, Eclipse 3.1, Net Beans 6.9.
- Web Services : XML, WSDL.
- Data Bases : Oracle 10g / 11g, MySQL.
- Languages : Java, JavaScript, PL/SQL, HTML, XML
- Operating Systems : Windows XP/7.

PROFESSIONAL EXPERIENCE

Vinod Kumar

Sr. HTML5, AngularJS Developer

- Worked as Sr.HTML5 Developer in Accenture Bangalore(BDC6) from 19 Aug 2016 to 18th of Feb 2017
- Worked as a software engineer in Polaris Software Labs Ltd., Hyderabad from 12 Aug 2014 to Aug 2016 through third party pay roll.
- Worked as software trainee Value Labs Hyderabad since Nov 2011 to Jul 2014 through third party pay roll.

PROJECT SUMMARY:**CAS**

Client : **ATT**
Team Size : **24**
Environment : **Windows7 OS, Bluage,Cassandra,Selenium,Angularjs,Springboot,**
Duration : **19th Aug 2016 to Feb 2017.**

Description:

Its a Migration Project. The application has already developed in COBOL, and we are migrating into Spring boot by using Bluage. By using this bluage tool, we need to generate the UML diagrams and based on the links that we are providing code will be generated and We use Apache Cassandra as a database, we use Selenium for testing, This application must be visible in all the views, so we are using Bootstrap for the Responsiveness. And for the UI Framework we are working with Angularjs. We generate the directives, services, and user defined functions.

Roles and Responsibilities:

- With the help of Angular JS library functions for the logical implementation part at client side for all the application
- Developed AngularJS Directives to extend the grammar of the web through reusable HTML elements, attributes, and classes
- Creating the layouts
- Checking the cross browser compatibility
- Working with media queries
- Working with bootstrap
- Creation of directives, and services in angularjs etc.,
- Responsible to design the browser compatible pages using HTML, CSS, JavaScript and JQuery
- Developed CSS styles to maintain the uniformity of all the screens throughout the Responsible for design and development of the web pages from mock- ups
- Responsible for checking cross browser compatibility and hence worked on different browsers like safari, Internet explorer, Firefox and Google chrome
- Used Bootstrap to show and hide classes for different and grid classes to create RWD

MYILS-R6

Client : Aircraft Malaysia
Environment : **Spring, Hibernate, Semantic UI, Angularjs ,Data Tables, Easy UI, Date and Time Picker,Weblogic10g, Oracle 12c.**
Duration : Sep 2015 to Aug 2016.

Vinod Kumar

Sr. HTML5, AngularJS Developer

Description:

System has developed for **MYILS** Labs. System Manage survey related activities and analyze the response to emit high strategic data for enterprise. Surveys are created by using questions which are based on KPIs (Key Performance Indicator). Assigned **MYILS** manager create survey by selecting questions for related industry and other metadata for related product. Organizations fill the surveys with the help of their assigned ATT manager to know the performance of their product in the market in comparison of their competitors. Data generated by their responses (comparative values and graph etc) are used to know the performance of product in market. System also defines the corrective actions to enhance the performance. Project using AngularJS framework frontend development using HTML5 and CSS3 for most of the feature. Also some features are implemented and maintained in classic java spring.

Providing help and guidelines to resolve some critical issues related to architecture, Design, UI and cross browser compatibility for timely delivery.

Roles and Responsibilities:

- Designed and developed the application modules in waterfall environment.
- Implemented **Java Spring MVC** design patterns as a part of web based application development.
- Designed the UI using **HTML5, Angular JS, JQuery** and **CSS**.
- Used **JQuery UI** and some other plugins (**DataTable**) to achieve desired functionality.
- Developed several **REST** web services and used **JSON** as a data exchange format.
- Use **Eclipse** as IDE tool to develop the application.
- Used advanced level of HTML5, JavaScript, CSS3 and pure CSS layouts (table less layout).
- Developed a core component of Analytics with Angular JS.

Ford Motors Detroit

Client : Ford Motors Detroit,

Environment : **Spring, Hibernate, HTML5, JQuery ,Angular js,Weblogic10g, Oracle 10g**

Duration : Mar 2014 to Jul 2015

Description:

Ford Motor Company engages in the development, manufacture, distribution, and service of vehicles, parts, and accessories worldwide. The company operates through two sectors, Automotive and Financial Services. The Financial Services sector offers various automotive financing products to and through automotive dealers.

Roles and Responsibilities

- Designed and developed the application modules in waterfall environment.
- Implemented **Java Spring MVC** design patterns as a part of web based application development.
- Designed the UI using **HTML5, Angular JS, JQuery** and **CSS**.
- Used **JQuery UI** and some other plugins (**DataTable**) to achieve desired functionality.
- Created a **REST API** with the **Spring** support.
- Developed **REST** web services and used **JSON** as a data exchange format.

Vinod Kumar

Sr. HTML5, AngularJS Developer

- Wrote **SQL** queries to perform CRUD operations to **Oracle**.
- Deployed the application on the **JBOSS 6.0** Application Server.
- Actively participated in weekly **code reviews**.
- Used **own developed MRO tool** for the new user requirements/enhancements and to track bugs.
- Use **Eclipse** as IDE tool to develop the application.
- Extensively used the **LOG4J** to log regular Debug and Exception statements.

Aaron's Dashboard

Client : Wells Fargo, Des Moines,
Environment : Spring, Hibernate, **HTML5, CSS3, Angular Js**, JQuery Date and Time Picker,
Weblogic10g, Oracle 10g
Duration : Mar 2013 to Jan 2014

Description:

Aaron Rents needed to allow regional and general managers to be able to view store data dynamically on the web and on the move. This required creating an application that would recognize mobile devices and their capabilities. The solution utilizes Java, AJAX, CSS3 styling, user controls, and Telerik RadControls. The mobile version of the application adjusts certain user controls so that the information can be displayed on devices that don't support flash or CSS3. Finally, the application supports two types of authentication: Domain Authentication and POS credentials.

- Designed and developed the application modules in waterfall environment.
- Implemented **Java Spring MVC** design patterns as a part of web based application development.
- Designed the UI using **HTML5, Angular JS, JQuery** and **CSS**.
- Used **JQuery UI** and some other plugins (**DataTable**) to achieve desired functionality.
- Developed several **REST** web services and used **JSON** as a data exchange format.
- Use **Eclipse** as IDE tool to develop the application.

Music Store Management

- Client : ArunaMusicals Bangalore
- Environment : Hibernate, **HTML5, Servlets, CSS3**, JQuery Date and Time Picker,
Weblogic10g, Oracle 10g
- Duration : Feb 2012 to Jan 2013

Description:

A Simple and Elegant Online Music Store through which the users can select the albums and tracks and place the order so that the order get processed and cd's are delivered to right users. The Back end Module Serves as a Content Management System for the Music Store through Which Album and Track Information's are updated in the Database.

Roles and Responsibilities:

- Well- versed in Object Oriented Programming (OOP) with JavaScript
- Designed DOM based interactive to reprogram selected links and W3C standards for CSS as well.
- Worked with CSS Background, CSS Layouts, CSS positioning, CSS text, CSS border, CSS margin, CSS padding, CSS table, Pseudo classes, Pseudo elements and CSS behaviors in CSS
- Developed custom directives (elements, Attributes and classes) using angularjs
Used Angular JS as framework to create a Single Page Application (SPA) which can bind data

Vinod Kumar

Sr. HTML5, AngularJS Developer

to specific views and synchronize data with server. creating Controllers, Client and Server side validations are done by AJAX calls using \$http and JSON parse.

- Analyzing and resolve coding defects along with peer reviews
- Created Java Script functions for client side validations
- Modified CSS files based on project requirement
- Worked on Hibernate mappings and relations
- Content Management System
- Upload and Download Forms
- Conformation Form to conform User Request
- Developing Dao Interface classes and Implementation
- Developing Service classes
- Developing HQL Queries

Personal Interests:

- Learn to new technologies(searching in magnazines, forums, and blogs)
- Like to play Bike Race game
- Listen to Music
- Received Start Performer Award

Education:

- MCA-2011 with 76.777% in 2011
- B.Sc[comp] with 62.4% in 2007
- +2 with 57% in 2004
- SSC with 73% in 2002
