EXPERIENCE

1. TECHNICAL CONSULTANT

Qbrics Inc (Early stage start-up) | Bangalore | May 2018 - Jan 2019

I provided my technical expertise for the development of Proof of Concept blockchain-based compliance product called I9.

My roles include:

- Complete ownership of the product: Designed, developed the entire application from the ground up and deployed it in AWS.
- Helped them to launch an SPA for I9 product and 2 RESTful web servers in Node.js, Golang.
- Architectural and product's future development discussion with CTO and various other team members.
- Planning and assigning the task to the interns, imparting the technical knowledge to make them more productive.

Tech Stack:

Angular 6, Node.js, Golang, HTML, CSS, Docker, AWS, Chart.js, MySQL.

2. FULL STACK DEVELOPER

DXC.Technology | Bangalore | Apr 2016 - May 2018

Worked as a Full-stack developer for the development and enhancement of an

(i) .Net based Translation and localization tool named HPTranslate.

(ii) JavaScript-based licensing tool called Software licensing and management application.

My roles include:

- To interact and understand the requirements as per interaction with the client and provide a timeline for project delivery.
- Development of application modules based on new requirements individually or in teams. Giving technical sessions to new developers joining the project.
